Who we are

F2 stands for **Financial Freedom.**
Finance should be a means to Financial Freedom, not a burden - that's the belief F2 Fintech is built on.

We help Doctors make informed financial decisions across lending, insurance, and investments, tailored to the demands of a medical career - and **we never charge the borrower a single rupee for our services**

Backed by **15+ years** in BFSI, **F2 Fintech** was founded on 25th July 2022, with one vision: **Financial Freedom for every doctor**

Our Vision

Enable financial freedom early in life through smarter, safer, personalized financial decisions.

Our Mission

Democratize financial services for every Indian professionals.

Why Doctors Need Different Financial Planning

Trained to Save Lives, Not Manage Money

Most Doctors are unaware of doctor-specific loans, tax planning, or insurance options.

Income Comes Late, Pressure Comes Early

Years of training delay income - but life's big expenses don't wait.

No One Ever Taught You This

Medical school skips finance entirely - so investing gets pushed to your 30s or 40s.

Burnout Drains More Than Energy

No bandwidth left to research the right loan, insurance, or investment.

Without Guidance, You're an Easy Target

Low awareness leads to bad loan terms, mis-sold insurance, and missed tax benefits.

Doctors take care of everyone else's health. It's time someone took care of their financial health.
