WHO WE ARE

F2 stands for **Financial Freedom.**

F2 Fintech is built on one simple belief - **finance should be a means to financial freedom, not a burden.** While our roots are in lending, our real mission goes further: **building technology that puts financial control back in people's hands.**

Alongside our lending business, we've built a **full suite of SaaS products** - tools designed to **simplify, automate, and elevate** how individuals and businesses manage their financial journey.

From **AI-powered financial advisory to internal automation systems**, technology sits at the core of everything we do.

Backed by **15+ years of experience in the BFSI industry,** F2 Fintech was officially founded on **25th July 2022** - bringing that experience together to build **not just financial solutions, but the technology behind them.**

TellyFlow is a **complete AI calling agent** designed to **replace traditional telecalling work.** **Fully customisable and trainable** with your product knowledge, it's already being adopted by multiple companies as **the future of calling - and the future of India.**

What problems does it solve?

Saves Training Costs
No more repeated hiring and training cycles for telecallers.

Fully Customisable
Built and tailored around your specific business needs.

Works 24/7
Runs round the clock, without fatigue or failure.

Minimal Maintenance
Once fed the required knowledge, it needs little upkeep to keep running.

Built to Last
A long-term solution that stays relevant and effective over time.

HRMS

"The Only HR Tool Your Business Will Ever Need."

F2 Fintech's in-house built Human Resource Management System - designed to manage every aspect of your team, from attendance to performance to operations, all in one place.

Employee Management

What it helps with:

Keeps your entire workforce structure organised and accessible in one place - no scattered spreadsheets & no confusion

What all it manages:

Employees • Visitors • Teams • Designations • Seating Plan

Attendance & Time

What it helps with:

Eliminates manual attendance tracking and gives complete visibility into who's working, on break, or on leave - in real time.

What all it manages:

Attendance • Employees Punches • Leaves • Attendance Activity • Break Management • Holidays

Performance & Reporting

What it helps with:

Track the performance of every employee in a single click. Keeps performance conversations structured, consistent, and data-backed — instead of relying on memory or informal feedback.

What all it manages:

Performance • Trust Meet

HRMS

"The Only HR Tool Your Business Will Ever Need."

Meetings & Scheduling

What it helps with:

Gives employees a direct, trackable channel to raise issues - so nothing gets lost in informal chats or emails.

What all it manages:

Meetings • Workspace Booking

Operations & Support

What it helps with:

Gives employees a direct, trackable channel to raise issues - so nothing gets lost in informal chats or emails.

What all it manages:

Support Operations • Raise Query

Assets & Inventory

What it helps with:

Keeps track of company assets and inventory, so nothing goes missing or unaccounted for.

What all it manages:

Assets / Inventory

Finance & Expense

What it helps with:

Brings transparency to team-related finances -no more chasing receipts or manually tracking penalties.

What all it manages:

Expense Tracker • penalties

OMS (Operations Management System)

OMS is an operations management tool built to simplify the hassle of managing loan files for DSAs, channel partners, and anyone in the lending business. bringing complete transparency from the start of a case to its very end.

Real-Time Case Tracking

Know exactly what stage your case is at, right now

Easy Customer Onboarding

Get customers into the system quickly, without the usual paperwork hassle

Seamless Ticket Movement

Tickets move smoothly between every stakeholder managing the loan file

Automated Case Ticketing

A ticket is auto-generated the moment a case enters the system, tagged to the person handling it

End-to-End Automation

From referral to resolution, the entire workflow runs without manual follow-ups

The result: complete transparency, zero guesswork - nothing ever falls through the cracks..

Arogyaa

Arogyaa is a doctor-patient platform designed to make quality healthcare accessible, on your terms - online or offline.

- **70+ Certified Doctors** - Choose from a wide range of specializations across different medical domains
- **Symptom & Health Assessment** - Log your symptoms and health concerns to better understand what you're dealing with
- **Lab Tests** - Book relevant lab tests directly through the platform
- **Online & Offline Consultations** - Based on your symptoms or test results, choose the right doctor and the consultation format that works for you
- **Domain-Based Selection** - Simply choose the specialty you need, and find the right doctor for it
- **Emergency Consultation** - In urgent situations, log in and raise a request instantly - notifying all relevant doctors, so you connect with an available one within minutes

Because healthcare shouldn't wait - and finding the right doctor shouldn't be hard
